

Make Ceramic Art Part Of ARCHITECTURE...

This bunny with whittled texture.. Easily becomes part of furniture, camel back chests, fireplace hearths, garden deck uprights.... And so much more.

Anyplace you have a 2 " square corner you can add ceramic art as part of the total effect.

Molds

1745ab Whittles Corner Bunny
12 1/2" tall and requires a 2" corner to seat the bunny back.

#1746 Whittles Tassel Topper
5 1/4" tall x2 1/2" diameter.

ACCENTS: SEE B1740 Whittles Bunny.. To create matching lamps... etc.

Rabbits have charm indoors and out. Making them part of home or furniture architecture can make a one of a kind statement immediately on viewing.

To make this simple for you.. The Corner Bunnies, have a solid notch out of the back that will fit any square 2" corner. They can be glued into place and become part of the structure. For those who are more timid about long range commitment to home décor art... they can just be placed to appear as part of the structure..

Ideas: Fire Place Hearths.. | Outdoors Attach to Deck Up Rights.. | Hope Chests and all sorts of wood furniture..
