# Creative Planting

## MOLDS

B1306 Blossom Baubles Retail: \$24.00  
B1699 5" Flower Pot Retail: \$20.00  
B1744 Saucer for the 5" Flower Pot. Retail: \$8.00

## How To:

### Supplies:

1- 4 foot 1/2" diameter wooden dowel rod  
1- 12" or smaller 1/4" wooden dowel rod  
Drill

### Boothe Molds:

B1306 Blossom Baubles ( medium and small )  
B1699 Flower Pot  
B1744 Flower Pot Saucer

### Greenware Adapting:

1- Cut stem from small bauble and place a 5/8" hole in the bottom. ( 2 holes directly opposite each other)  
2- Drill 5/8" hole in the bottom of the Saucer and the Flower Pot.

After all the ware has been decorated, glazed and fired proceed with the following assembly.

1. Mark the 1/2" dowel rod 20 inches from one end.
2. Drill a 1/4" hole directly through the rod at your mark point.
3. Cut a 2 inch piece of the 1/4" dowel rod and insert it into the hole you have just drilled.
4. Thread the small bauble over the 20" end of the dowel rod.
5. Repeat with the saucer, flower pot, and top with the medium bauble.
6. Stake in the garden about 12 inches deep to keep your "above the garden planter" steady through out the growing season.

*Now you can control those herbs  
which take over the garden by  
beautifully raising them above  
the garden.*
